INTRODUCTION

Professional team to provide customers with machine customization services

Automatic liquid bottle filling, capping and labeling solutions

Main Features 1. The filling line can automatically complete a series of tasks such as metering, filling, capping, labeling, and bottle sorting.

2. The filling head has an anti-drip function, which effectively ensures the sanitation of the production environment. 3. Intelligent PLC control system, easy to use and easy to manage. 4. The casing is made of stainless steel, which is durable and beautiful. 5. The electrical components of international brands are adopted, with stable performance and long service life. 6. Various product adjustment parameter formulas can be stored for later use to improve work efficiency.

Number of filling heads	4/6/8 (can be customized)
Measuring range	500ml-5000ml
Filling speed	360-480 bottles/hour (4L capacity bottle)
Measurement accuracy	±1%
Voltage	380 50/60HZ
Power	2.2Kw
Working air pressure	0.6-0.8Mpa

SHOW DETAILS

Strict quality control system, the quality of the machine is stable and reliable

01

Electric Eye Detection

Intelligent detection,
realize no bottle
without filling, reduce
material waste.

02

Filling Device

Made of 304# stainless
steel, accurate
measurement and fast
filling.

03

Capping Device

Suitable for various sizes of caps, with adjustable strength.

04

Labeling Device

The labeling is firm and flat, without wrinkling or blistering.
